

Sand Creek students — download Microsoft Office for free

Recently the Sand Creek Schools has undergone some changes to utilize technology more efficiently for all of our students and staff. One initiative was to begin embracing cloud technology such as Office 365 for increased productivity and reliability. One benefit of this change is that we can now offer free software to all of our students and staff. Please note that part of your agreement with Microsoft to use this free software is that you must uninstall it from your devices once you are no longer enrolled at Sand Creek Schools.

To begin, please navigate to:

1. <http://login.microsoftonline.com>

This will display the Microsoft login page. In login (such as John. Smith) followed by **your school login with the students.sc-**

the top field please enter your student **@students.sc-aggies.us — You must have aggies.us**

2. When you click on the password field, You must use your school login password.
3. Once you have successfully logged in you on the install button. If you need to install Tablet link on the side of the page and fol-

you will be directed to another page to complete your login.

can begin installation at the bottom of the page by clicking Office on your tablet or smartphone, click on the Phone & low the instructions.

Please note, the school does not provide technical support for the installation, however, students receive their username and password from the technology department.
