

# 3D Physical Therapy

Providing  
Customized, Functional Athletic Training  
for Sand Creek School

3D PT Physical Therapy and Sports Training has an Athletic Training program serving Lenawee County schools including Sand Creek High School. Athletic Training is also provided to all athletes at 3D PT's clinics in Adrian and Tecumseh, Michigan.

Through 3D PT's athletic training program, student athletes at receive professional injury treatment and prevention training in addition to specialized programs based on applied functional science.

The goal of the program is to have athletes better prepared to compete and, if they do sustain an injury, to return to play post-injury much more quickly than with traditional training methods. Free consultations with 3D PT physical therapists are also available to all student athletes and their family members at our clinics.
